

# Hygienic

Not only do objects made from this solid surface material appear to be works of art cast from a single mould, the material's seamless manipulation and non porous nature create surfaces which are extremely hygienic, easy-to-clean and thus ideally suited for use in hospitals and laboratories.

Dental implant clinic, Location: Bucharest, Romania, Design: Adriana Tihon, Atvanguard, Material: HI-MACS® Alpine White, Opal, glossy painted MDF, Photo: Stelian Popa
